

From the Spring Ridge Board of Directors

RE: Pool Opening and Options

After much discussion, the Spring Ridge Conservancy Board of Directors has made the following preliminary decisions regarding the pool. As we are currently under Phase 1 restrictions, the pools and facilities will remain closed. However, if by our June 16, 2020 meeting, we have direction from the county and state authorities that we will move into Phase 2 by July 1st, we will open as an **EXERCISE ONLY FACILITY**.

Here's what that means so far:

- 1) Lap lanes will be installed in both the lap pool and main pool. The baby pool and piano pool will be closed.
- 2) We will allow two swimmers per lane in half hour increments, which will allow twenty people access to the pool at any given time.
- 3) The pools will be for Lap swimming or water walking only.
- 4) No chairs or furniture will be out for lounging.
- 5) Locker rooms will remain closed.
- 6) Bathrooms will be for emergencies only and will only allow for one person to use at a time. Bathrooms will be cleaned between each use.
- 7) Lifeguards will wipe down handrails between each use.
- 8) Masks do not need to be worn inside the facility, but should be worn if waiting for a spot outside the facility.
- 9) If a line forms while waiting for a spot, it will be important to maintain the physical distancing guideline of six feet.

We are considering whether it is feasible or not to put together a daily sign up sheet for entrance so we can avoid the lines outside the facility.

If by June 16, 2020, there has not been a clear indication that we will move into Phase 2, then the Board will make the decision to close the pool for the season and begin the process of winterization.

We are all working through an unprecedented situation and want to do our best to comply with state and county mandates in a safe and effective manner. As the restrictions change and lift, we will assess and plan as appropriate.
